## World's Week

BY HAROLD L. WEIR

Associate editor of The Edmonton Bulletin and author of the daily column "From the News"

Solution of the Iraq problem has probably become the major consideration, for the moment, in Hitler's mind.

That the revolution against the British proved abortive and unsuccessful was not only bad business for Hitler but increased his necessity for occupying that country.

It was bad business for the Nazis in two ways, first, because it warned the British of Nazi intentions in that field and secondly, because Hitler's failure to take the aid of the Iraqis undoubtedly weakened his prestige among the Arab peoples.

Harold L. Weir

Particularly in Turkey did the Iraq fiasco have serious repercussions for the Germans. Turkey had more or less resigned herself to inevitable German influence in her part of the world and apparently was prepared to offer the Nazis some slight measure of co-operation.

Now, she is not at all certain that the Germans will ever get into Iraq. Coupling this surprise with the regret she must feel over standing aside and letting Hitler occupy her other security zone in Thrace, Turkey must be beginning to suffer an uncomfortable notion that she has backed the wrong horse.

It is not to be supposed, however, that Germany will relax her efforts to bring Turkey within the Axis fold. She would give a great deal to be perfectly sure that the two million tough fighting men of Turkey will not suddenly turn against her.

It may be expected, therefore, that some violent new offensive will be launched somewhere very soon, if not to capture Iraq, then at least to impress the Turks.

German agents are said to be very active in Syria while diplomatic pressure is being brought to bear on Vichy to secure the use of Syrian bases.

Spain and Portugal, too, are apprehensive of German attentions.

Portugal, of course, is traditionally a British ally. Spain owes her very existence in recent months to the British forbearance in permitting food for Spain to pass through her blockade.

Doubtless a good many Spaniards and Portuguese are gratefully aware of these facts.

But the extent of fifth columnist activities in Spain and Portugal are incomprehensible to the people of countries like Canada, where the full weight of Nazi propaganda is virtually unknown.

Thousands of Nazi agents have been working with feverish haste in Spain and Portugal to create an anti British feeling and to establish the notion that the Axis cannot lose. It would be foolish to underestimate the effect of this pressure or to believe that Spain will offer any serious resistance when Hitler chooses to send his armies to the attack on Gibraltar.

The Chronicle invites its readers to listen to the Saturday Night Review broadcast by Harold L. Weir over radio station CFRN (1260 kc) every Saturday night at 8:15.

## R. J. CROCKER DIES

The death of Richard John Crocker, aged 63, occurred Tuesday afternoon in the Colonel Belcher hospital, Calgary.

Mr. Crocker was born in England. Enlisting with the 89th Battalion in Calgary, he served overseas from 1915 until demobilization. Returning to Canada, he had resided in Crossfield for the past 20 years where he was the Government telephone agent. He had been in ill health for some time and in February was forced to resign his position and enter hospital. At that time Mrs. Crocker moved to Calgary, taking up residence at 1617 Fifth street northwest.

He was an active member of the Crossfield branch of the Canadian Legion.

Surviving are his wife, Jessie, a daughter, Mrs. W. G. Jones, and one grandson, all in Calgary; two brothers, Fred in Leeds, England, and Joseph in Rhyl, Wales.

Funeral services will be conducted on Friday afternoon, at 2:45 o'clock, at Jacques funeral home, with Rev. Dr. W. Hollingsworth officiating. Interment will be in the Field of Honor, Bunsland cemetery.

## MISSION BAND HONOR MOTHERS

In observance of Mother's Day, May 11, the Mission Band honored their mothers at a delightful afternoon last Saturday. Eighteen mothers and twenty-six members of the Mission Band were present.

Mrs. Ballam, the leader, welcomed the mothers and explained the work and aims of the Mission Band. This was followed by a program of recitations, piano and violin solos, a song by four girls and the singing of festival numbers by some of the boys and girls.

A delicious lunch was served to the mothers and each one was presented with a dish made from a phonograph record.

Mrs. Everett Bills moved a vote of thanks for the lovely afternoon.

The Baptist Church has arranged to hold services in the Madden hall every Sunday evening at 7:30.

## LOCALS

Mr. and Mrs. Wm. Morrison have taken up residence in the Smart house.

In the absence of G. I. Dawson, Mr. J. A. Moir has been transferred from Vulcan to the local Bank of Commerce.

Miss Vida McMillan who suffered a sprained ankle the early part of the week, is able to be around again.

Mrs. J. P. Methers received a Mother's Day telephone call from her daughter, Mrs. G. M. Westcott in Ottawa.

The Misses Violet and Ruth Currie and Private "Mac" of the Edmonton regiment, spent Sunday between buses at the Rectory.

George Nasdyk of the Royal Canadian Navy was a visitor in town Saturday evening. He is awaiting transfer from the Navy to the Air Force.

Special Mother's Day services were held in the United Church on Sunday, the Sunday School being exceptionally well attended, with about 20 mothers present.

The senior and junior C.G.T. groups are holding a Mother and Daughter banquet next Wednesday evening in the church parlor. Included on the program will be speakers from Calgary.

While a definite figure cannot be given on the reduction of wheat acreage in this district at the present time, the municipal secretary reports that he has received over 250 applications to date, with more to come, and all show a substantial reduction.

A variety of weather has been experienced during the past week. Sunday's temperature soared up to 84, accompanied by a dry wind with showers Monday evening and the mercury dropping close to the freezing point. Tuesday was cold all day. Rain commenced falling at night and Wednesday morning the ground was covered by an inch of snow which had disappeared at noon, providing welcome moisture.

## TENNIS CLUB HOLD ANNUAL MEETING

Plans for an active season got underway when the local tennis club held its annual meeting Wednesday, with president A. D. Stevens in the chair. After approving the financial statement and last year's minutes the following officers were elected: Hon. President, Frank Mossop; president, C. H. McMillan; vice-president, Mrs. A. D. Stevens; secretary, treasurer, Geoff. Dawson. Tournament committee, A. D. Stevens and E. Kinsey. Entertainment Committee, Mrs. McMillan, Mrs. Mossop and Mrs. Geo. McDonald.

The fees were set the same as last year and are as follows:

Family ticket	\$5.00
Men	\$3.00
Women	\$2.00
Students	\$1.00
Country members	\$2.00

Students are to have use of the courts all afternoon up to 6 P.M. except Wednesdays and Sundays.

A number of people played tennis last year who did not pay any fees and it was decided that these people could place themselves in good standing by paying half of last year's dues plus this year's by June 1st. The deadline this year is June 1st and with the large number of prospective paying members in sight, the Executive cannot permit others to play for nothing. Fees may be paid to Mr. McMillan at the Bank during the temporary absence of Mr. Dawson.

## RED CROSS SHIPMENT

The local Red Cross made a large shipment to headquarters last week. Included were: 11 sheets, 42 pillow cases, 20 pr. socks, 19 pr. mitts, 1 helmet, 1 scarf, 3 airforce sweaters; 2 children's quilts, 5 boys' shirts, 1 lady's dress, 2 child's pyjamas, 1 boy's sweater, 2 girls' jumpers, 9 girls' sweaters, 1 girl's skirt, 1 boy's trousers, 8 girls' blouses, 1 girl's dress, 1 knitted baby's pullover, 3 baby slippers, 8 baby nighties, 2 pair child's mitts; and 1 complete baby lavette.

The committee still has a quantity of material for distribution.

## Alberta Briefs

Negotiations are proceeding between the Provincial Government and the Dominion for the transfer of University residences June 1st. They will be used by the Department of National Defense. Included in the transaction are Athabasca, Assiniboia and Pembina dormitories, the Normal school and St. Joseph's dormitory. It is expected that the R.C.A.F. will be in possession. Students will not be hampered in their scholastic work, but they will be obliged to seek lodgings elsewhere. Representing the province is Hon. W. A. Fallow, while Lt.-Col. Goodwin Gibson is acting for the Dominion.

A limited open season on badger has been announced by the Game Branch. It is reported that in some sections natural increase has brought poultry ravages and live stock injuries through holes in pastures. Full particulars of permits where required will be given by the Game Commission's office, Edmonton. Hunting or trapping is permitted.

Montana is boosting Alberta as a vacation land as an expression of good will and friendship, according to information received in the Alberta Travel Bureau. A. J. Breitenstein, secretary of the Great Falls chamber of commerce, wrote that his organization is urging citizens to visit Alberta and other Canadian provinces when vacationing this year. "We are pointing out that Canadian people will appreciate these visits and that it will give residents of Great Falls and vicinity an opportunity to visit the National Parks of Alberta."

Alberta's anglers may go to it on May 16 if they live, or fish, north of the lines cut by the Red Deer and North Saskatchewan rivers. Season's opening was announced last week by Hon. N. E. Tanner, Minister of Lands and Mines. On the Athabasca river, however, the season opens June 1, and in Southern Alberta from the Boundary to the Bow, June 1. Spray and Kananaskis Lakes will open June 16; Highwood river, June 1. No one shall catch or retain more than 20 cutthroat, Loch Leven, rainbow, speckled or brown trout or grayling, or Rocky Mountain whitefish in one day. Licenses cost \$2.25, about the cheapest in Canada, and where the fish named are absent there is no license. Children under sixteen fish free.

Strong support for the Alberta Prairie route to Alaska also comes from Montana, and recently the Great Falls Tribune urged editorially that planners of the Alaska Highway pay particular attention to the virtues of this route as outlined in the official Alberta folder advertising the "lee side of the mountains" as the logical and economical one to follow. It is expected that more support will be forthcoming at the conference to be held in Regina later this month. Trade board of Canada and U.S., particularly in prairie sections, will be represented in strong force. They will urge the highways commission to consider the prairie route.

## Training Speeds Up in Far Off South Africa

The Empire's war efforts are reaching a high mark in all the dominions and colonies. In South Africa Gen. Jan. C. Smuts, Prime Minister of the Union, (left) looks on at the training of engineering units at a camp in the Transvaal, with Capt. E. T. Dobson, commanding officer of the camp, (centre), and Lt.-Gen. Sir Pierre van Ryneveld, Chief of the South African General Staff.

## HONOR IS PRECIOUS

When Mr. Winston Churchill addressed the British people throughout the Empire on Sunday, April 27, he stirred the hearts of men everywhere by his declaration that in a democracy, such as the British Empire, the guarding of the nation's honour was the nation's first consideration always.

Earlier this year an estimated total of nearly two million citizens pledged on their honour that they would buy War Savings Certificates regularly each month. Up to the twenty-third day of the month, there were only 711,000 applications received at Ottawa. Between the twenty-third and the last day of April it was anticipated that this total would be increased proportionately, but that the final figure would not be anywhere close to the total number of Canadians who signed pledges.

It has long been proved that Canada takes second place to no other country in the matter of meeting its pledged obligations. The country's record in the last great war still stands as living proof of the country's integrity.

Thus there can be but one answer to the present situation in which thousands of our countrymen turn their backs on an honour pledge. They cannot have fully realized the solemnness of the undertaking when they signed.

A gentle reminder of this should be all that is necessary to bring the total of 711,000 applications up to where it belongs—close to two million.

## SOW FORAGE CROP IN MOIST LAND

Sowing forage crop seed in dry land is a waste of time and seed. A moist firm seed bed is needed and with forage crops one cannot get the drill deep to reach the moisture for these seeds must not be sown deeper than one inch.

If moisture conditions are not good, leave the seed in the sack until they are. While early sowing of seed is recommended, many good stands of forage crop have been obtained from seed sown as late as July 1st, and with some, such as Crested Wheat Grass, fall seeding is practised quite extensively.

Do not seed forage crops until the soil is moist and firm and then seed not deeper than one inch.

## The World of Wheat

By H. G. L. Strange

The country of Iraq, now so much in the public eye, has from time to time during the past 6,000 years been great news.

This land once constituted the whole of the known world. It was the site of the Flood, of the Garden of Eden, of the ancient cities of Ur, Babylon and Nineveh; it was the home of Abraham and of the great conqueror Nebuchadnezzar (whose career was not unlike Hitler's) and whose downfall was predicted accurately by the Biblical prophets Jeremiah, Ezekiel and Daniel.

For thousands of years this ancient country was the scene of invasions and battles by the Chaldeans, the Egyptians, the Babylonians, the Jews, the Medes, the Persians and the Assyrians; these nations taking, holding and losing one after the other that historic stretch of country between the Tigris and Euphrates Rivers, credited with being then, as it still is today, the most fertile land in the world.

On this soil wheat is said to have been first grown, and it was mainly for wheat that the ancient wars and invasions were made, but to-day it is for the magic oil that the struggle is taking place, and on identically the same ground that has seen so many great conquerors of the past rise supreme, reign for a brief period, only each in his turn to fall.

Following factors have tended to raise price: Proposed legislation calls for higher parity loans for U.

S. farmers—Reports from Balkans continue to indicate late seeding—Winnipeg Free Press estimates prairie wheat acreage reduced 5.5 million acres from 1940—General Motors—Cornell Index of world wholesale prices has advanced 4 percent during April.

Following factors have tended to lower price: U.S. winter wheat crops continue to make good progress—U.S. corn stocks on April 1st totalled 1,428 million bushels, largest on record—Private estimates indicate U.S. winter wheat crop 640 million bushels May 1st, up 24 million bushels during month.

Golfer: "If you don't stop chattering you'll drive me clean out of my mind."

Wife: "That wouldn't be a drive. It would be a two-foot putt."

# CANADA CALLS

Canada has reason to count her blessings in these days of trial.

Canada is three thousand miles away from the sound of guns which are devastating Europe.

The broad Atlantic Ocean rolls between us and the ruthless savagery of the German Armies.

The strongest fleets in the world—British, American and Canadian—patrol the sea between us and the enemy.

We have a great friendly nation, probably the richest and most powerful in the world, at our side.

## CANADA CAN AFFORD HER SACRIFICES

This war is a mechanized war.

We have the nickel . . . copper . . . lead . . . zinc and other metals the war industries need. We have access to the iron. We can make the steel.

We have the organized industries to fabricate these metals and make the trucks, and tanks, and guns, and planes, and the ships.

We have skilled workers and the plants for mass production. Canada has the wheat and the food supplies.

Let us count our blessings, and tighten our belts.

Canada is rich—one of the richest countries per head of population in the world. Let us lend our strength to the utmost of our power. Our national future depends upon Victory.

We must win to live.

## THERE WILL BE FURTHER CALLS

There have been many calls upon the people of this country for money since Canada entered the war at the side of Great Britain.

There will be further calls.

Let us face the future unafraid.

Canada can carry the load.

But every Canadian must shoulder his and her share.

This is the most critical hour in our history. Let the future historians say of Canada, as they will say of our Mother Country: "This was their finest hour."

### NEW GASOLINE TAX NOT TOURIST BAR

While the Dominion government has imposed a three cents a gallon gasoline tax, this should not deter U.S. tourist traffic from entering this country.

Officials of the Alberta Motor Association have given some study to the question and feel that while in some cases the new tax may keep a few tourists away, this will not be a general result, by any means.

While provincial and dominion gasoline taxes have the effect of

of adding 10 cents a gallon to the price of gasoline, the U.S. tourist obtains a premium of 10 per cent on the money he brings into Canada. The result is that his exchange premium more than offsets any additional cost of his fuel.

Thus, Albertans should intensify their efforts to attract more U.S. tourists this year. They should point out that Canada has not imposed border restrictions on tourists because of the war, and that every possible effort is made to make tourists welcome to this country.

Another aspect which should be

considered, in the opinion of officials of the A.M.A., is that many of these American tourists are anxious to help Canada in winning the war and realize that they can do so by coming to this country and spending their money here.

Canada needs more buying power in these times, and the tourist trade can help substantially. Let's spare no efforts to get more tourists.

A fighting plane that climbs more than 5,000 feet upward in one minute is among American war products.

### MESSAGES TO ENEMY & OCCUPIED COUNTRIES

The Hon. W. P. Mulock, K.C., Postmaster General, announces that arrangements have been made by the Canadian Post Office Department for a system of Personal Post-als Messages to facilitate the sending of brief messages between persons in Canada and relatives and friends in enemy and enemy-occupied countries, including Germany, Austria, Italy, Czechoslovakia, German held Poland, Belgium, Holland, Norway, Luxembourg, Denmark, occupied France and the Channel Islands.

Such messages are to be written on an official form and are to be confined to simple messages not exceeding 20 words which are purely personal in character relating to family news or inquiry as to the well-being of the addressee or his relatives and friends. Nothing of a political, economic or military character is permitted. Messages should be in English, French or German.

The messages will be transmitted through the intermediary of the International Red Cross Committee at Geneva, Switzerland, on the special official forms which may be obtained through any Postmaster.

The fee for a Personal Postage Message is 25c which pays postage to final destination as well as the postage from Geneva to Canada on the addressee's reply.

## Wheat Deliveries

Producers should carefully study the Government's 1941 Wheat Policy to determine which alternative will bring them the best returns.

It will be necessary for producers who wish to deliver their 1940 crop and collect farm storage to do so before August 1st, 1941, when the 1941 crop delivery quota becomes effective.

**ALBERTA PACIFIC GRAIN  
COMPANY, LIMITED** (28)

### FLY SPRAY

A cheap effective fly spray can be made right at home on the farm. Into one gallon of high test gasoline (coal oil) add three quarters of a pound of fresh Pyrethrum Flowers. Allow the Pyrethrum to soak in the kerosene for 24 hours, stirring it occasionally, then allow this mixture to settle for another 24 hours, and then pour off the kerosene, which is used for the spray.

The common house fly is not only a nuisance but is dangerous as well because it frequently spreads disease. This formula is one of a number for the control of insect pests which is contained in the Department of Agriculture's Bulletin No. 42.
